

Speak Out and Influence the World Around You!

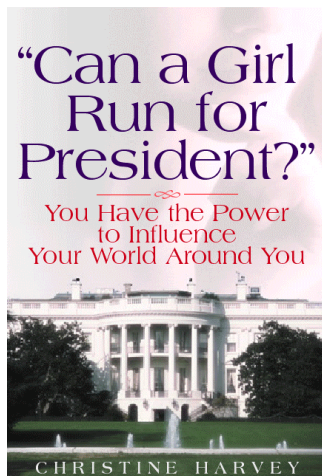

Over 10,000 kids are dropping out of our high schools every day!

Most of these occurrences are unnecessary. This works out to be 12 out of every 100 kids in your neighborhood. 700,000 people have turned to home schooling.

But those families and communities are not the only ones affected. Society is losing at the same time.

The crime rate in America is the 2nd highest in the world. This costs you, the taxpayer, millions of dollars, not to mention your personal safety!

Most people don't know how easy it is to change it. Numerous studies, from very credible sources including the Wall Street Journal, show that a large number of Americans think it takes hard work and a lot of time, to make things better. Fact: 90% of citizens can affect change with three easy steps. The vast majority can turn around the problem within **7 minutes!** And have no negative repercussions to themselves. Think about it. Are you really safer if you keep following the crowd and not speaking out? Or is action better?

Most people are intimidated by speaking up.

About 90% of all Americans obediently go through their daily lives tolerating things that offend them. The trouble is, most don't realize how much they really end up paying in terms of quality of life. Even if they want to speak out, they often don't.

Studies show that of the people who challenge situations, more than half of them win!

All that people need is a little information and instruction. Then getting the results they want is easy.

It's women who can make a difference!

Now is the time that women need to come forward and speak out. This book shows you what a powerful and positive impact they can make.

"Can a Girl Run for President". is a step by step guide to speaking up and winning.

In its 244 pages, the author covers, 1. How to spot the problem in the first place.

2. What to do and say when you see the problem. 3. How to speak out and win! 4. And everything in between. All of this, in very simple, easy to understand STEPS (not theoretical) so that the average person will have no trouble taking action now!
